TOKENS**

**6 TRICK
TILES**

**1 PLAYER
CUBE**

MINI-EXPANSION

use only if playing
with multicolor
magic tiles

**1 MULTICOLOR
MAGIC TILE**

2. CHANGES TO THE SETUP

1. Add the wild elemental die to the 7 other dice.
2. Add 9 training action cards to the corresponding deck and the other general components to the general supply.
3. Place the tournament area overlays over the matching symbols on the game board — this marks where the 5th player will place their tournament dice.

3. DRAGON TRAINING PHASE

After rolling the dice, the active player keeps 1 elemental die of their choice to use later on their turn. This selection is not considered choosing a dice area. The remaining 7 dice are then distributed as usual in a 4-player game (2-2-1-1-1).

On their turn, the active player selects 1 remaining dice area and uses the dice from it along with the die saved earlier.

4. TOURNAMENT PHASE

A total of 6 tournaments are played: 5 personal tournaments (1 from each player) and 1 public tournament.

5. SKY RACE EXPANSION

The 5th player to come to the finish of the sky track does not gain any benefit.

Note: If you later play with fewer than 5 players, remove the 9 training action cards from the deck and 1 wild elemental die from the dice pool.
