

HELA

VILLAIN GUIDE

HELA'S OBJECTIVE

Have a combination of eight Allies and Soul Marks and no opposing characters at Odin's Vault.

Hela needs to have a combination of Allies and Soul Marks to achieve her objective. During the game, Hela will attach Soul Marks to Heroes. After a Hero is defeated or vanquished, collect the Soul Mark and place it in Odin's Vault. Hela needs to collect at least one Soul Mark before she can declare victory.

SOUL MARKS

Soul Marks are attachments placed on Heroes through specific card abilities. Soul Marks may only be attached to Heroes. Cards like Marked by Death, Leah, Hand of Glory, and Nightsword attach Soul Marks to Heroes.

A Hero may have only one Soul Mark on them at a time. Some Heroes like Balder, Angela, and Valkyrior are immune to Soul Marks. There is no limit to the number of Soul Marks you may have in play.

Hela collects Soul Marks regardless of who defeats a Hero with an attached Soul Mark. She does not collect Soul Marks when Heroes are removed—only when they are defeated or vanquished.

Hela's collected Soul Marks may not be relocated from Odin's Vault. They may not have anything attached to them, nor can they help in any vanquish actions.

GODDESS OF DEATH

Hela has cards in her deck with abilities that provide a benefit when they are in the discard pile.

Hand of Glory

This Specialty allows you to find Heroes from the Fate discard pile and play them to any Domain with an attached Soul Mark. The cost of this Activated Ability is the Strength of that Hero. While it may be expensive, it allows you to get more Heroes with Soul Marks into play.

GODDESS OF DEATH, CONTINUED

Draugr Swordsman

Draugr Swordsmen receive +1 Strength for each Draugr Swordsman card in your discard pile. Keep these cards off to the side of your discard pile to help keep track

of their Strength. If you must reshuffle your discard pile to replenish your Villain deck, your previously discarded Draugr Swordsmen are no longer in your discard pile and do not grant a Strength bonus.

Dísir

Dísir may be played from your discard pile.

UNIQUE FATE CARDS

Angela

This Hero removes a Soul Mark from Odin's Vault when played. She has one of the highest Strengths in the game and makes a dangerous opponent if placed in Odin's Vault.

Conquer Valhalla

When this event is played, Hela may no longer play, find or access any cards in her Villain discard pile. This means she may

not play Dísir directly from her discard pile, nor may she add the Strength of discarded Draugr Swordsman to a Swordsman in play.
