

KILLMONGER

VILLAIN GUIDE

KILLMONGER'S OBJECTIVE

Take control of the mines and relocate two Explosives to any Domain other than your own.

Special Setup: Mission Tiles

Stack the Klaw tile on top of the Control the Mines tile. Place this stack over the top two actions at The Golden City location in Killmonger's Domain.

KILLMONGER'S VENDETTA

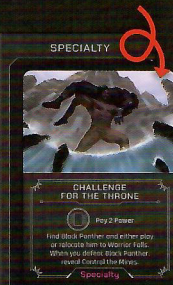

To achieve Killmonger's objective, you must complete each task, in order, as part of a multi-step mission.

1. Defeat Klaw

Klaw is a Rival, a special tile type unique to Killmonger. Only you can affect Klaw—no other Villains can target, remove or defeat Klaw. Cards targeting characters can also target Klaw. You may also perform vanquish actions on Klaw.

Once Klaw is defeated, flip this tile over to reveal Challenge for the Throne and move the stack to the Specialty area of your Domain. Doing this uncovers the actions previously blocked by Klaw.

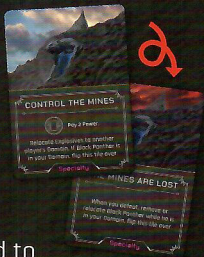

2. Challenge for the Throne

Challenge for the Throne is a Specialty tile. You need to activate it and pay 2 Power to find and play Black Panther to Warrior Falls. If Black Panther is already in play, relocate him to Warrior Falls.

3. Control the Mines

You must use the Control the Mines Activated Ability to relocate Explosives to an opponent's Domain. This is the only way to perform this part of the mission. When relocated, Explosives are moved to the bottom of an opponent's Domain and do not block any actions. You still control Explosives in an opponent's Domain.

If Black Panther is in your Domain, flip Control the Mines to the other side. Once Black Panther is defeated, removed, or relocated out of your Domain, flip the tile back over.

THE WARRIOR'S WAY

Killmonger has few Allies, and needs to rely on other means to get rid of Heroes in his way.

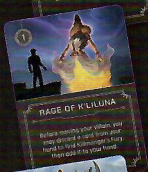

Killmonger's Fury

This is the easiest way to defeat characters who slow you down, but it is not strong enough to defeat Klaw or Black Panther.

Rage of K'Liluna

This Specialty helps you find Killmonger's Fury and add it to your hand.

Armored Rhinos

This Specialty helps you reduce the Strength of Heroes by 1, making Killmonger's Fury more effective.

Explosives

While these Items are needed to complete your Objective, you may also remove them to defeat characters at their location.

UNIQUE FATE CARDS

WAKANDA FOREVER

Find Black Panther and either play or relocate him to Killmonger's Domain. If Black Panther is already in play, place a +1 Strength token to him.

Effect

Wakanda Forever

Wakanda Forever is an Effect card that brings Black Panther back into play, even if he has been removed or defeated.

If Wakanda Forever is played while Black Panther is already in play, place a +1 Strength token on him, then relocate him immediately to any location in Killmonger's Domain.

BLACK PANTHER

Black Panther gains 2 Strength while in Killmonger's Domain.

4

Hero

Black Panther

Black Panther stops Killmonger from controlling the mines and moving Explosives. Other Villains may relocate him to and from Killmonger's Domain.

STOLEN ANTIQUITIES

Killmonger cannot play Items.

Reward: Killmonger may find only 1 Item in his deck or discard pile, then play it immediately for free in his Domain.

5

Event

Stolen Antiquities

While this event is active, Killmonger may not play any Items, even if Control the Mines is in play.
