

THANOS

VILLAIN GUIDE

THANOS' OBJECTIVE

Collect the six Infinity Stones.

Special Setup: Infinity Stones

Place the six Infinity Stone tiles (Mind Stone, Power Stone, Reality Stone, Space Stone, Soul Stone, and Time Stone) with the Item side up near the Fate deck. These are the unclaimed Infinity Stones.

Infinity Stones affect all players;
see the main rulebook for additional rules.

COSMIC POWER

Infinity Stones

Infinity Stones will appear in other Villains' Domains attached to one of their Allies. You must relocate your Ally to their Domain, defeat your opponent's Ally who has the attached Stone, then relocate your Ally with the Stone back to Thanos' Domain to claim it. Once you claim a Stone, it cannot be taken away from you.

Consult the Well

Consult the Well allows you to dictate which Villain receives a Stone. Immediately after the Stone is played, you may relocate an Ally to that Stone's location.

Space Throne

Space Throne grants an additional relocate action, making it easier for Thanos to move his Allies and retrieve Stones.

Allies such as Ebony Maw and Corvus Glaive are useful in getting a Stone back quickly.

COLLECTING INFINITY STONES

Thanos may relocate his Allies to any location in any Domain containing a Stone. If you have relocated Allies to a location with an Infinity Stone, you may use a vanquish action to defeat the Ally with the attached Stone. You do not need to defeat all Allies at the location to collect the Stone.

If you have at least one remaining Ally at the Stone's location, immediately attach it to that Ally, who may now be relocated back to Thanos' Domain. Once your Ally has a Stone, only you may relocate that Ally.

If you do not have an Ally left at the Stone's location, or if Thanos' Ally with an attached Stone is removed or defeated, the Stone stays in the same location in that Villain's Domain. It becomes an unattached Item in that location, placed at the bottom of the Villain's Domain. If Thanos moves an Ally to a location with an unattached Infinity Stone, that Stone immediately attaches itself to Thanos' Ally.

UNIQUE FATE CARDS

A Stone Is Found

The targeted Villain takes a random Infinity Stone from the unclaimed pile. The Villain receiving the Stone attaches it to an Ally and may activate it immediately.

Adam Warlock

Thanos cannot win the game while Adam Warlock is in his Domain.

Sacrifices Must Be Made

Before moving to a new location at the start of your turn, Thanos must either pay one Power or discard one card from his hand for each Ally in play, or remove that Ally.

Note: If Thanos draws A Stone is Found from the Fate deck as a result of the effects of Avengers Assemble!, he immediately discards it without effect.
